Smart Bridge

USB Wall Charger

Save These Instructions

WHAT'S NOT INCLUDED

Screwdriver

OUTDOOR USE ONLY.

Suitable for outdoor areas such as pathways, gardens, lawns, and driveways.

**CAUTION: RISK OF FIRE.
DO NOT SUBMERGE.**

Do not use with extension cord near water or where water may accumulate.

Keep lamp at least 16 feet from pools and hot tubs.
Ensure that plugs and receptacles remain dry.

IMPORTANT SAFETY INSTRUCTIONS

- These lamps have a polarized plug (one blade is wider than the other) as a feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not alter the plug.
- Do not mount or place near gas or electric heaters, fireplaces, barbecue grills, candles, or other similar sources of heat.
- Do not secure the wiring of the product with staples or nails, or place on sharp hooks or nails.
- Do not let lamps rest on the supply cord or on any wire.
- Do not use this product for other than its intended use.
- Do not hang objects from cord or wire.
- Do not close doors or windows on the product or extension cords as this may damage the wire insulation.
- Do not cover the product with cloth, paper or any material not part of the product when in use.
- This product employs overload protection (fuse). If the fuse blows, it is possible that a short-circuit or overload has occurred and the product needs to be discarded.

- Read all instructions.
- Ground Fault Circuit Interrupter (GFCI) protection is to be provided on the circuit(s) or outlet(s) to be used for the wet location lamps. Receptacles are available having built-in GFCI protection and are able to be used for this measure of safety.

CAUTION: RISK OF ELECTRIC SHOCK.

Do not use an extension cord. Do not use with extension cord near water or where water may accumulate. Keep lamp at least 16 feet from pools and spas. Keep plugs and receptacles dry.

1

Ensure that the clip (A) aligns with the groove (B), as shown above.

2

Slide the spike into the base of the pathway light.

The cable inside will create resistance.
Please use force to firmly attach the spike.

3

Use a screwdriver and secure the 2 screws
on the spike.

4

Follow the above diagram for the cable connections.

Maximum connection of up to
40 smart pathway lights.

Connection Instructions

1

Scan the QR code below

or go to <https://atomismart.com/app/>

Get the app

Download the Atomismart app from
the App Store or Google Play.

2

Register

Follow the on-screen instructions
and register an account.

Make sure to allow access to Location (Android),
Bluetooth® and Local Network (iOS).

Turn on your Smart Bridge

Connect the Smart Bridge to the USB Wall Charger and plug it into an outlet. Make sure the red light is blinking. If it isn't blinking, hold the reset button (10-20s) until it does.

Do not plug in the smart device(s) now.
The Smart Bridge must be connected first.

4

Add your smart device

Press “Add Device” or the “+” sign and select “Connect Device” on the pop-up that appears.

If the pop-up does not appear, close the app and try again. Still nothing? Read the “Troubleshooting” section in this user guide.

5

Connect your 2.4GHz WiFi network*

Enter or select your local WiFi name, enter your password, then press "Continue".

*Make sure you're connected to a 2.4GHz WiFi network (Atomi Smart can't connect to 5GHz networks).

6

Power Button

Plug in your smart device

Confirm that the lights are flashing. Then open the Smart Bridge previously added to the Atomi Smart app.

If the lights are not flashing, press and hold the device power button for about 10s and try again.

7

Add your smart device

Press "Add new device" to search and pair the device with the Smart Bridge, then press "Done".

Press "Add existing device" if the device was previously paired with the app.

TROUBLESHOOTING

The app can't find my smart device.

Please reset your device.

For Smart Bridge: Make sure that your phone's Bluetooth® is turned ON and the permission settings are allowing the app to connect via Bluetooth®.

For Smart Pathway Lights: Press and hold the "Power" button until the light starts flashing to reset your device".

My WiFi network doesn't appear in the Atomi Smart app.

Use your smartphone to confirm that you have at least two WiFi bars in the vicinity of your Atomi Smart device. If not, move your Atomi Smart device closer to your router (The list will refresh every 10 seconds).

Cannot connect to my WiFi network.

Make sure that you have entered the correct WiFi password during setup. Check if there are problems with your internet connection. If the WiFi signal is too weak, reset your WiFi router and try again.

I'm getting "Failed to Add Device", "Failed to find router" or "DHCP" error.

- Confirm that your phone is connected to a 2.4GHz WiFi network.
- Check whether the router password you entered is correct.
- Confirm that the DHCP service is enabled on your router settings.
- Make sure that your WiFi signal is strong.
- Temporarily disable your 5GHz network.
- If you have a mesh network/router that does not allow you to disable 5GHz, try to move farther away from your router until your phone moves to the 2.4GHz band.
- For more Connection Troubleshooting tips, visit atomismart.com/connection-troubleshooting/

My Atomi Smart device appears as "Unavailable" or "Offline" in the app.

Refresh the device list.

I just replaced my router.

If you replace your router, you will need to reset your devices and add them again to the app.

How to control multiple lights simultaneously?

- Open the Atomi Smart app and select one of the wall lights that you've added.
- Press the 'Edit' button on the top-right corner of the screen.
- Press 'Create Group' and select your lights.
- Press 'Save'. You can now control your lights simultaneously.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Notice:

This device complies with Part 15 of the FCC Rules. Operation is subject to the two following conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

IC Statement:

This device contains licence-exempt transmitters/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

CAUTION:

Modifications not approved by the party responsible for compliance could void user's authority to operate the equipment.

2-year limited warranty from the date of delivery or purchase against defects in material and workmanship.
