PureFlat Collection
21.5 CU.FT. 4-DOOR REFRIGERATOR

Model-RQ22A4CSD

Sleek Design and High-Tech Features for Ultimate Family Convenience

The Hisense PureFlat Quad Door refrigerator provides a sleek modern look with high-tech features to fit all your family's needs. The inverter compressor technology adjusts cooling capacity to what's needed, is more energy efficient and runs quieter than a traditional compressor. Five digital temperature sensors are engineered to optimally adjust the cooling level of the fridge. With 2 spacious drawers for frozen food and 6 door bins, there is plenty of room for the weekly groceries and long-weekend essentials.

BIG CAPACITY, COUNTER DEPTH DESIGN

At 21.5 cubic feet, the RQ22 provides lots of room to store your groceries and does it with style.

DUAL TECH COOLING

Dual Tech ensures cool air is distributed evenly throughout the fridge, while preventing any mixing of odours and helps to maintain proper humidity control in each part of the fridge which keeps fruits and vegetables fresher longer.

INVERTER COMPRESSOR

Hisense's inverter compressor technology means your new fridge is quieter and uses less energy than a traditional compressor. With the ability to adjust cooling power depending on the situation, it reacts by providing just the right amount of cold air and maintains a more stable temperature in the fridge. A more stable temperature means foods last longer.

TRIPLE ZONE

Easily convert the My Fresh Choice compartment to a fridge or freezer. With temperature settings from -18°C up to $+5^{\circ}\text{C}$ you can use it for virtually anything from produce to meat to ice cream! By setting the temperature you need, you create a perfect environment for your food, prolonging its freshness and taste.

FLEXIBLE STORAGE

Enjoy flexibility with fully adjustable cantilever shelves. Whether it's large bottles, tall jars or big packages, these height adjustable shelves will help you to fit everything perfectly.

METAL GLIDE DRAWERS

Durable metal easy-glide runners allow you to smoothly pull out the storage bins in the My Choice and Freezer compartments. Capable of holding up to 27kg of groceries per drawer you can load them up without worry.
